[Tableau Public](#)

Data Scientist with a Master's degree in Management and Technology (TUM) and practical experience in data-driven consulting. My strength lies in analyzing complex datasets using Python, R, and SQL, bridging the gap between technical expertise and business strategy to develop actionable recommendations for clients.

Experience

STAT-UP Statistical Consulting & Data Science, Munich

Jan 2025 - November 2025

Junior Data Scientist

- **Advanced Analytics & Modeling:** Conducted statistical analyses on sensitive patient datasets using R and Python to identify risk factors and disease progression, assisting in the development of forecasting and machine learning models.
- **Reporting & Visualization:** Developed an interactive Shiny dashboard and automated facility-level reports using Quarto, Markdown, and LaTeX, which were directly utilized in a client's annual strategic meeting.
- **Data Engineering & Automation:** Built reproducible workflows and automated data pipelines to clean large datasets, including the execution of large-batch spatial queries and routing calculations via API integration.
- **Consulting & Client Enablement:** Supported data-driven decision-making by providing benchmarking insights across healthcare facilities in Germany and prepared comprehensive materials for client statistical training sessions.
- **Technologies:** R, Python, SQL, Shiny, Quarto, Markdown, LaTeX, HTML, YAML, GitLab, VS Code

CareerFoundry, Berlin (Remote)

Jan 2024 – Aug 2024

Weiterbildung (Continuous Training) Data Analytics

- **Data Processing & Analysis:** Extracted, cleaned, and analyzed large datasets using SQL and Python to identify patterns and generate actionable business insights.
- **Data Visualization:** Developed interactive dashboards in Tableau and Python to monitor KPIs and support data-driven strategic decisions.
- **Advanced Analytics:** Implemented statistical methods and machine learning models (including regression and clustering) for predictive analysis.
- **Selected Projects:** Independently executed end-to-end analyses, including the [Instacart Customer Analysis](#) and the [Rockbuster Stealth Analysis](#)
- **Technologies:** Python, SQL, R, Tableau, Microsoft Excel, Git, Jupyter Notebook

Allianz SE (Headquarters), Munich

Nov 2021 – Jun 2022

Digital Marketing Intern: Group Strategy, Marketing, Distribution – Digital Sales Team

- **Project Management & Coordination:** Acted as a liaison between business and engineering teams to align project goals, successfully assisting in the launch of digital campaigns in East Asia and executing a CMS integration across all operation entities.
- **Data Analysis & Strategy:** Conducted customer behavior analysis and market research using Adobe Analytics to drive strategic expansion into Southeast Asia.
- **Process Optimization & Training:** Developed and implemented a standardized SEO manual for headquarters and subsidiaries, and delivered digital campaign training to multiple operational entities.
- **Technologies:** Microsoft Excel, PowerPoint, Jira, Scrum, Kanban, Adobe Analytics, CONTENTS

Siemens Digital Industry Software, Munich

Apr 2021 – Sep 2021

Project Student: Global Cloud Practice – Project Management

Digital Transformation in the Field of Industrial IoT and Cloud Ecosystem:

- **Market Research & Data Analysis:** Performed comprehensive competitor, ecosystem, and data analyses for Industrial IoT services across the DACH region to uncover market insights and strategic opportunities.
- **Data Visualization & Reporting:** Created compelling data visualizations using Excel and VBA to present complex research findings to corporate stakeholders and academic supervisors.
- **Stakeholder Engagement:** Conducted targeted stakeholder interviews to bridge the gap between academic research and cutting-edge tech trends in Digital Transformation and Cloud Ecosystems.
- **Technologies:** Microsoft Excel, VBA, PowerBI, PowerPoint

Education

MSc Management and Technology (TUM-BWL), 2019-2023

Technical University of Munich, Munich

- Specialization in Management: Marketing, Strategy, & Leadership;
Specialization in Technology: Computer Engineering
- Master thesis: Impact of Financial Resources on Entrepreneurial Ecosystem

BA Economics, 2013-2017

National Chengchi University, Taipei

Skills & Expertise

Data Science & Analytics: Data preparation, Exploratory Data Analysis (EDA), and Machine Learning using Python, SQL, R, and Excel

Data Visualization: Creation of interactive dashboards and presentations using Tableau, Power BI, Looker, Shiny, and PowerPoint

Reporting & Reproducibility: Automated report generation and documentation with Quarto, Markdown, LaTeX, HTML, and YAML

Languages: English (Fluent), German (B1 with telc certificate), Mandarin (Native), Taiwanese (Native)
